Message by Singapore's Minister for Sustainability and the Environment and Minister-in-charge of Trade Relations Grace Fu for the Italian Chamber of Commerce in Singapore's Annual Directory 2024/2025

**GRACE FU**

MINISTER FOR SUSTAINABILITY AND THE ENVIRONMENT  
MINISTER-IN-CHARGE OF TRADE RELATIONS  
SINGAPORE

As we navigate uncertainties in the global economy, it has become more important than ever to deepen international partnerships. I am glad that the close economic ties between Singapore and Italy have continued to grow over the years, and I look forward to continuing our partnership with the Italian business community as we explore new opportunities for greater cooperation.

There has been strong momentum in Singapore and Italy's bilateral economic relationship, in both our government-to-government engagements and exchanges between our business communities. Building on our robust and wide-ranging partnership in areas such as trade, tourism, science and technology, we are also exploring new opportunities for collaboration. Italian Deputy Minister for Transport and Infrastructure Edoardo Rixi's visit to Singapore in May 2023 was a good opportunity for both sides to explore possible collaboration in the maritime and land transport sectors. Farmindustria's business mission to Singapore in November 2023 and the participation of Italian companies in the Global Space and Technology Convention in February 2024 have also been valuable avenues for us to identify opportunities in

the pharmaceutical and space sectors.

We have also made significant strides in advancing digital cooperation between Singapore and the EU, including Italy. Building on the EU-Singapore Digital Partnership that was signed in February 2023, we are now negotiating a legally binding digital trade agreement that will give our businesses the legal certainty and clarity they need to transact confidently in the digital economy. I look forward to the conclusion of a high-standard agreement that will deliver commercially meaningful outcomes for Singapore, Italian and other EU companies, while enhancing our digital connectivity.

Singapore welcomes Italian companies that are interested to use Singapore as a launchpad to access opportunities in Southeast Asia, and looks forward to continue strengthening our economic ties with Italy. In this regard, I appreciate ICCS's efforts in encouraging and supporting engagements between our respective business communities. Let us continue to strengthen our close cooperation as like-minded partners through the many existing and forward-looking initiatives that are in the works.

## Message by H.E. Dante Brandi, Ambassador of Italy to Singapore

**H. E. DANTE BRANDI**  
AMBASSADOR OF ITALY TO SINGAPORE

Dear ICCS Members and Friends,

I am very pleased to contribute to the ICCS Directory for 2024-2025. I thank the leadership of the Chamber, as well as all its members and active Committees which have been engaged and proactive in many activities and programs during the year.

Singapore has a prominent role in Asean Region and its role as a Hub is strategic for our Italian companies, which through the support of the "Sistema Italia" that includes ICCS, Embassy of Italy, Italian Trade Agency, Confindustria Asian branch and the newly opened office of SACE (Italian export credit agency), will be able to enhance their presence in the City-state and in the whole area as well.

Italy had an important presence in the first months of 2024, starting with the "Art week" in which several Italian artists were featured in some exhibitions. Italy confirmed also its leading role in aerospace sector during the GSTC and the Airshow.

In particular, at the first event, in collaboration with Lansett committee of the ICCS, 4 Italian companies were present (ELT group, Metasensing, Miprons and D-OrbiT) demonstrating that the outer Space is the answer to many of the challenges the world is facing today and that Italy is a leading space-faring country. With an active participation at the

Singapore Airshow 2024 with 10 Italian companies, our Country was represented also by two Italian delegations led by General Lupoli and Dr. Ziello Emilia from the Italian Ministry of Defense. The strategic role of this sector will also be enhanced by the presence of the Italian astronaut Vittori, who will attend several event in June organized by local authorities in synergy with our Embassy.

The importance of our country in this Region has also been demonstrated in other initiatives involving the excellence of our companies in different fields and sectors. With this commitment, our Embassy, in collaboration with Bloomberg, launched the series "Made in Italy, Shaping the World". This series, launched in February, featured CEO Manfredi Catella from Coima, a company leader in impactful urban regeneration projects, and CEO of RINA SpA, Carlo Luzzato, active not only in the field of naval certification, but also in sectors such as energy, infrastructure, engineering consultancy and high-tech manufacturing. This initiative aims to present the excellence of Italian entrepreneurship to Singapore's leading business and financial leaders, and will include other leading figures from the Italian business industry.

Italy's creativity was well presented in the exhibition on the Italian textile supply chain "FabricA: Italian Textile Style and Innovation", an integrated promotion initiative realised by the Ministry of Foreign Affairs and International Cooperation in collaboration with Singapore Fashion Council, Sistema Moda Italia, ACIMIT (Association of Italian Manufacturers of Machinery for the Textile Industry) and Confartigianato Imprese to tell the international public about the quality, technology and research of the Italian textile supply chain, thanks to its high propensity for innovation, investments in the development of latest generation machinery and research into advanced materials.

For the first edition of the Made in Italy day, organized by the Ministry of Foreign Affairs, MIMIT and Italian Trade Agency, at the Institute of Technical Education (ITE), Singapore's main technical training institute, a letter of intent was signed between ITE and the Italian company Meridionale Impianti (MI). This agreement includes the supply of robotic equipment and the implementation of training programs in the semiconductor sector. This agreement will open the route to other possible future collaborations with other Italian companies in the tech sector.

The goal is to increase our presence also on technological fields increasing the perception of the

Italian industrial and innovative potential including the continuation of the agreement on Science and Technology between Italy and Singapore (active from May 2023), increasing the activities aimed to intercept and encourage new investment flows.

In such dynamic framework, the Chamber of Commerce plays a vital role in promoting and supporting the Italian business community. The various initiatives such as the Business Award, ICCS e-commerce projects, trade participations and all the networking activities and the support strategies, are clear indicators of the Chamber's commitment to collaborate with all his members and in synergy with all the different Italian actors based of the territory.

These initiatives not only benefit the individual businesses but also contribute to the overall growth and success of the Italian business community.

This strategy will also be important in view of the forthcoming visit of the high tall ship Amerigo Vespucci and the presence of "Villaggio Italia" in the last part of the year, in which all the players of Sistema Italia and our companies will play a crucial role in promoting the best of our Made in Italy and culture in the City-State.

## Message by Gionata Bosco, ICCS President

**GIONATA BOSCO**

PRESIDENT OF THE ITALIAN CHAMBER OF COMMERCE IN SINGAPORE

Dear ICCS Members and Friends,

I'm very glad to address you in my third year as President of the Italian Chamber of Commerce in Singapore.

Last year was challenging for our Chamber, but also fulfilling with important activities and new strategic partnerships. During 2023, we had opportunities to host business delegations in the space and technology, healthcare, fashion, food and beverage industries. A big thank you goes to Simone Placidi (Chair of the LANSETT committee) for making possible the event at Global Space and Technological Convention. The visit of the Young Entrepreneurs in the Healthcare sectors (AIOP Association) was well coordinated. Last June, we started to host the office of Confindustria for ASEAN Region, and last July we coordinated the visit of Singapore Fashion Council in Italy. In the F&B industry, we consolidated our efforts with the Singaporean and Malaysian Delegation to Tuttofood and HOST in Milan, as well as the Italian Food and Beverage event in Singapore which hosted over 30 Italian companies and more than 50 importers and distributors from the region.

Thanks to the support of the Embassy of Italy and the Italian Trade Agency, we hosted the meeting with Hon.

Edoardo Rixi Deputy Minister of Infrastructure and Transport, and with Hon. Matteo Perego di Cremona Undersecretary for Defence.

For the year 2024, the Chamber of Commerce has paved the way to strengthen its role in fostering bilateral trade between Italy and Singapore. During the first quarter, we had coordinated two business delegations from Singapore to Italy. With thanks to our Committee LANSSET, we had also coordinated the Italian Pavilion at the Global Space and Technology Convention for the fourth consecutive year.

I am glad to share a new initiative. On 5th June 2024, the Chamber of Commerce will present our first forum: Implementing Sustainability in SEA hospitality sector. This is a forum dedicated to architectural, engineering and design companies in the hospitality sector, focused on the important topic of sustainability. At the end of June, we will be the partner of SIGEP Asia. On 3rd and 4th July, we will present the 6th Edition of the Italian Food and Beverage in Singapore with over 40 exhibitors from Italy, and more than 100 importers and distributors from SEA region. The highlight of September will be the ICCS Business Awards. At the end of November, just before our Annual Gala Dinner,

we will host the event Made in Piemonte - Singapore, with a delegation of companies from Piemonte region.

The international political situation and economic challenges will remain the main issue in 2024. As Chamber of Commerce, we will remain focused on our mission to strengthen bilateral relations between Italy and Singapore in collaboration with our Business Council in Italy and in coordination with the Sistema Italia, Embassy of Italy, Confindustria, Italian Trade Agency, Bank of Italy, SACE. Before I conclude, I would like to thank my fellow Board Members and the Team at the Chamber for their valuable contribution and dedication to support the Chamber of Commerce and our Business Community in Singapore.

I encourage each of you to actively engage in the discussions, share your insights, and leverage the diverse talents within our Association. Our shared success is not just a reflection of individual accomplishments but a testament to the power of a united business community.

# Driving and Riding

Non-Singaporeans can drive or ride on Singapore's roads, provided they have an International Driver's Permit. Should your license be in another language, make sure you carry an English translation. Drivers have a one-year grace period to obtain a Singapore driver's license, unless they become Permanent Residents, at which point a license conversion has to be done. This would require one to take the Basic Theory Test which can be booked online or at any one of the three driving centres located on different parts of the island.

Below are the names of the schools and their websites:

**Bukit Batok Driving Centre**

**Comfort DelGro Driving Centre**

**Singapore Safety Driving Centre**

If you do not have a driving license and wish to obtain one, you can also sign up at any of the above-mentioned schools.

## Getting around Singapore

Singapore's transport system is highly efficient and easy to navigate. The various modes of transport used on the island are as follows.

# Taxis and private hire cars

Taxi services in Singapore are run by Comfort & Citycab, and SMRT Taxis, TransCab and Prime Taxi. Getting a taxi is generally easy as they can be flagged down on the main road. However, if you are hard-pressed for time, you can also call the hotlines to make a booking. This can also be done in advance with a pre-booking service through ride hailing applications such as Zig, Grab, Gojek and Tada.

The websites of the Taxi and ride hailing services can be found below:

# Public Transportation: Buses and Trains

Download Maps

Fare Calculator

Singapore is equipped with one of the world's best rail and bus networks, making it convenient and affordable to commute by train or bus. Trains and buses operate from 5.30am to as late as 1am, depending on the location.

Bus times can be tracked on mobile apps such as "MyTransport" and "Google Maps". These apps also allow you to plan your journey by showing all the possible routes between your starting point and destination. There are currently several train lines in Singapore. There are also Light Rail Transits (LRTs) that link MRT stations with HDBs

public housing estates to reach as many residential areas as possible.

Payments for train and bus rides can be made with a simple swipe of an EZ-Link card, a prepaid smart card that allows you to pay for all your public transport travel. You can purchase one at most MRT stations and 7-11 stores. Cash payment is also accepted, but this is highly impractical on buses and is not accepted for the MRT.

# Choosing your Neighbourhood

Moving abroad can be challenging, so there are certain aspects you should take into careful consideration before making the big move.

Here is a comprehensive overview of the different neighbourhoods and the types of home you could live in. The guide aims to provide you with more information that will make your transition smoother.

Firstly an important factor to take into consideration is the location of the accommodation. Singapore's neighbourhoods vary greatly, and each has its own unique characteristics and history.

# City Centre

## Orchard - Dhoby Ghaut - Newton

Orchard Road's bustling boulevard is a retail and dining paradise, with over 5,000 establishments including prominent shopping malls, restaurants, cinemas, bars, health and wellness centres. All your needs can be met within a mile. Locals and expats are offered the ultimate lifestyle experience, yet many of the surrounding neighbourhoods are green and quiet.

embassies. With a mix of single-story and mostly low-rise condominiums, the Tanglin area exudes an air of serenity with its tree-lined roads and green surroundings. Although there are no Mass Rapid Transport (MRT) stations nearby, it is easily accessible by bus and strategically located near the Botanic Gardens, Orchard Road and Dempsey Hill. The latter boasts a mix of quaint furniture shops, art galleries, cafes and restaurants.

## Central Business District (CBD) - Marina Bay

This area has an abundance of luxurious, high-rise new condominiums and is easily connected to Singapore's financial centre. It also has spectacular views of the island's breath-taking skyline. The small size and relatively high cost of apartments is compensated by the convenience of well-connected underground walkways, home to a large number of shops, supermarkets, restaurants, bars and MRT stations. With the famous Marina Bay Sands Integrated Resort, the Esplanade Theatres and numerous elegant eateries of One Fullerton Bay, you'll never get bored.

## Robertson Quay - River Valley

Situated between Orchard Road and the Singapore River, Robertson Quay and River Valley are popular areas for young people who want to be near the Central Business District (CBD), so they can enjoy the wide range of amenities on offer and the buzzing nightlife. Robertson Quay boasts modern condominiums with impressive water views. Transportation is made easy via Clarke Quay MRT stations and the numerous bus services available here.

## Tanglin - Jervois Road

A walk and a world away from Orchard, Tanglin is a largely residential area that is home to many

# Central

## Holland Village - Clementi - Bukit Timah

Holland Village is a hamlet tucked away behind the Singapore Botanic Gardens and is less than 10 minutes away from Orchard Road. This little spot has been referred to as Singapore's "Bohemian" enclave because of its variety of art galleries, artisan shoe shops, tarot card readers and shops selling ethnic products. A traditional favourite for expats, Holland Village is served by its own MRT station. Holland Road leads to the Sixth Avenue and Clementi, both of which offer affordable detached houses, apartments and condominiums. A trip to the CBD takes approximately 30 - 40 minutes and the area is close to international schools like the United World College of South East Asia, the Tanglin Trust School and the National University of Singapore, which is Singapore's first university.

Bukit Timah, on the other hand, is a well-established residential area that stretches all the way

to the Bukit Timah Nature Reserve. It is close to Orchard Road and international schools and clubs like the Japanese Association, the Hollandse Club and the British Club. It is also home to the Italian Supplementary School (Scuola Supplementare Italiana Singapore), which is strategically located at Bukit Tinggi Road.

## Sentosa

Previously called Pulau Blakang Mati, this popular resort island offers exclusive homes at a high price, complete with unparalleled sea views. Attractions include a 2 km long sheltered beach, biking trails, golf courses, private boat berths and the Resorts World Sentosa, featuring the Universal Studios Singapore theme park. Sentosa offers a respite from the hustle and bustle of city life, without being disconnected from it. A monorail train brings Sentosa residents to Vivo City, one of Singapore's largest shopping malls and the closest MRT station which is Harbourfront.

# West

## Upper Bukit Timah Road

To the west of Bukit Timah lies the Upper Bukit Timah area, where you can find a wide choice of good-value condominiums, semi-detached houses and several shopping centres. It also contains a rustic Dairy Farm Nature Park that provides numerous recreational and leisure facilities.

Multiple expressways make it easily accessible for car owners. It now has MRT access as well.

## Pasir Panjang

Home to the recently renovated West Coast Park, Pasir Panjang is a new, up-and-coming residential area in Singapore, with its own MRT station and modern condominiums. Aside from the cool breezes of the South China Sea, there is no end to the leisure activities available here, with numerous recreational facilities at the West Coast Park, the Republic of Singapore Yacht Club, the Labrador Nature Reserve and the Tanjong Berlayer Park.

# East

## East Coast

The East Coast area stretches for 18km and is another popular neighbourhood amongst expats. The East Coast Park, a breezy park with numerous cycling, running and entertainment options makes the East Coast area an attractive neighbourhood for getting together with family and friends. The area provides a variety of housing options for various budgets and the East Coast Parkway (ECP), Kallang - Paya Lebar Expressway (KPE) and Pan-Island Expressway (PIE) provide easy access to the city and to the airport. International schools such as the United World College of South East Asia (UWCSEA), the Canadian International School and the Chatsworth International School also have their campuses here.

## Katong

Affectionately known as the 'Home of the Peranakans', the Katong/Joo Chiat area is a treasure trove of well-preserved heritage shophouses, quaint shops and restaurants catering for the culinary needs of this traditional and unique community. A perfect blend of modern and colonial bungalows as well as large shopping malls such as Parkway Parade and 112 Katong are also scattered around the area.

## Siglap - Bedok

One of the oldest residential areas in Singapore, the Siglap and Bedok areas are far from the city centre but are jewels in their own right. They offer a village-like tranquillity that stands in contrast to the busy urban atmosphere that Singapore is known for. As a result of their long history, housing options are remarkably varied, from HDB apartments to townhouses, condominiums to spacious, detached bungalows. The areas are also well served by MRT connections running along to the EXPO Convention and Exhibition Centre, as well as to the airport.

# North

## Thomson

The Thomson and Upper Thomson areas are home to the MacRitchie, Pierce and Seletar reservoirs. Condominiums here are generally more spacious and affordable. Singapore's famous wildlife attractions (the Singapore Zoo, Night Safari and River Safari) are also nearby, making it a fantastic regular hangout for parents with young children. Moreover, it is served by good bus routes and a MRT line that has recently been completed.

## Woodlands

Woodlands is another favourite among many expats primarily for its spacious, reasonably-priced houses, and the strategically-located Singapore American School. Not only does this area have a suburban ambience, it is also near the Woodlands Checkpoint: one of the two access points from Singapore to Malaysia.

## Seletar - Yio Chu Kang - Yishun

Right in the heart of Singapore this area offers plenty of affordable houses and condominiums. Seletar Air Base has a small cluster of conservation black-and-white houses which you can apply for (see 'types of housing'). The area is convenient for parents who wish to send their children to the American, Australian and French schools, as well as the XCL World Academy.

# Choosing your New House

Singapore has a wide variety of housing options, with solutions for both young professionals and families. Knowing the type of housing that best suits you will bring you one step closer to finding your dream home. Here are a few options for you.

## HDB

### Housing & Development Board flats

These homes have been around since the 1960s. Built by the government's Housing Development Board (HDB), they take the form of high-rise public housing that accommodates over 80% of Singapore residents. These flats are located in residential areas, which are self-contained satellite towns with schools, supermarkets, clinics, hawker centres, and sports and recreational facilities. HDB flats are a very convenient option for individuals looking for affordable and practical accommodation. NOTE: foreigner nationals may only rent HDB flats; only Singaporean citizens and permanent residents are eligible to buy them.

## Condominiums

Similar to HDBs in terms of architecture, condominiums (also known as condos) are built and run by private companies. Bonding with the local community is made easy through big social spaces, gyms, swimming pools, communal areas and barbeque areas.

## Shophouses and Conservation Homes

These houses date back to the pre-war era and are usually part of two or three storey structures, decorated with colourful shutters or tile work. Originating from the 18th century, shophouses historically featured a shop on the ground floor and a residential space, intended to accommodate one or more families, either at the back of the building or on the second floor. Similar to shophouses, black-and-white houses are conservation homes offering more distinct reminders of the colonial era in Singapore. Painted white with black trimmings, they range from quaint bungalows to large mansions which include separate guest quarters, parking areas and pool houses.

## Serviced Apartments

Lastly, serviced apartments are an excellent choice for temporary accommodation. These fully-furnished apartments include hotel-style perks such as maid services and free buffet breakfasts.

**SINGAPORE, THE GATEWAY TO ASIA**  
A brief Guide for doing business in Singapore

# Doing Business in Singapore

Singapore stands as one of Asia's wealthiest economies, defying its small geographical size to become a formidable global economic power. Strategically located at the nexus of international trade, Singapore attracts numerous multinational corporations, many of which establish their regional headquarters here. This trend is fuelled by various factors: Singapore's open economy, enticing government incentives, a vast network of double taxation agreements, consistent financial stability, robust infrastructure, and a well-earned reputation for fairness and impartiality in commercial law.

CURATED BY ALGEBRA

The primary goal of this guide is to furnish readers with fundamental insights into Singapore, offering an overview of its tax system, business entity types, and immigration requirements. It is designed to serve as a practical starting point for investors contemplating business establishment in Singapore. For more detailed guidance, our team in Singapore is ready to assist. Comprehensive contact information is provided within this guide.

# Type of business

In Singapore, there are different types of structures for doing business:

- **Representative Office ('RO'):** It is a unique type of entity that does not have a legal status and does not generate any profit but acts as a cost centre to the parent company. A representative office is often chosen by foreign businesses that are keen to explore opportunities in Singapore with the market researches and feasibility studies. It represents a temporary arrangement since its registration can be renewed for a maximum of three years. After this period, the foreign corporation must either set-up a permanent business structure or terminate its presence in Singapore.
- **Branch Office:** A branch office does not exist as a separate legal identity from its foreign parent company, since it is considered as a "legal extension" of the foreign parent company itself. Thus, the liability of a branch office extends to its foreign parent company. It must share the same name and constitution of the parent company and it cannot carry out different commercial activities from than that of the parent company. It is taxed as non-resident entity without benefitting from any tax benefits and incentives in Singapore.
- **Private company limited by shares:** It is the most preferred business structure by foreigners for doing business in Singapore. This entity has separate legal personality, it can benefit from any tax incentives and schemes, it can engage in business operations that are different from those its parent company and it is suitable with the scale of most business activities limited liability for shareholder. Foreign parent entities can 100% own a subsidiary in Singapore.
- **Variable Capital Company (VCC):** A new corporate structure for investment funds constituted under the Variable Capital Companies Act which took effect on 14 Jan 2020. The VCC is complementing the existing suite of investment fund structures available in Singapore.
- **Sole Proprietorship (single owner) or Partnership (at least two and max of twenty owners):** This entity is the easiest to set up with almost negligible compliance norms and costs. A natural person who is resident in Singapore above 18 years of age can set up a sole proprietorship. This entity is not a separate legal entity from its owner who is unlimited liable for debts and losses of the business, individual tax rates apply to its chargeable income and its registration requires to be renewed annually or every 3 years.

- **Limited Partnership (LP):** This type of entity involves quick set up procedures, it is easy to manage, registration costs are minimal with less compliance regulations to adhere to and its registration requires annual renewal. It is formed between at least one General Partner (GP) bearing unlimited liabilities and one Limited Partner with limited liability (but with no role in the management). At least one local manager must be ordinarily resident.
- **Limited Liability Partnership (LLP):** Also this business structure has less formalities, procedures and regulatory duties to comply with. It requires at least two partners with limited liability. It is a separate legal entity from its partners, and it needs at least one local manager with 18 years old to be ordinarily resident in Singapore.

## THE PRIVATE LIMITED COMPANIES

A private limited company is a business entity incorporated under the Singapore Companies Act (Cap 50). A private limited company is the most advanced, flexible, and scalable type of business form in Singapore.

### Key requirements

- **Shareholder:** The company must have at least one shareholder, who can be a natural person or a corporation and enjoy limited liability. A private company cannot have more than 50 shareholders. Local shareholding is not required.
- **Capital:** A minimum paid up capital is SGD 1.00. The capital of the company can be increased any time after the incorporation.
- **Management:** The company is managed by a director or a board of directors, of which at least one must be legally resident in Singapore.
- **Address:** It must have a local and physical registered office address where the company will keep all of its statutory documents and such address cannot be a PO box.
- **Secretary:** The company must have a professional company secretary who is a natural person locally resident in Singapore responsible for ensuring the smooth administration of the company (compliance with corporate governance and other financial and legal regulations).
- **Auditor:** The company must appoint an audit firm to audit its accounts annually, unless exempted by law. Audit exemption requirements relate to "small companies/small groups" as well as "relevant dormant companies".

## Compliance Requirements

- **Annual General Meeting and Annual Return:** The company must hold the Annual General Meeting (AGM) to approve (among others) the financial statements within 6 months from the financial year end. Under certain circumstances, private companies do not need to hold AGMs if they send their financial statements to members within 5 months after the FYE provided that no member or auditor requested that an AGM be held. The company is also required to file with the local registrar, Accounting & Corporate Regulatory Authority (ACRA), its Annual Return (AR) within the 7 months from the financial year end. The AR should contain the details of the Officers of the Company, Registered Address of the Company, and the Auditors. To be noted that "private dormant relevant

companies" are exempted from preparing financial statements and do not need to hold AGM, subject to the above-mentioned safeguards.

A private dormant Relevant company is a private company which is dormant, is not listed (or not a subsidiary of a listed company) and has total assets less than or equal to \$500,000 (consolidated value if it is an ultimate parent).

- **Registrable Controllers:** Companies are required to maintain a register of registrable controllers (RORC) and file the RORC information with the ACRA. A Registrable Controller is defined as an individual or a legal entity that has a "significant interest" (holds  $\geq 25\%$  shares or voting rights) in or exercises "significant control/influence" over the company (i.e., can appoint or remove the directors, amend the constitution and nature of company's business).

All foreigners who intend to work and live in Singapore must have a valid visa, here below are listed the main visa schemes .

## S PASS

Designed for mid-level skilled workers who must earn a minimum of S\$3,150 monthly and fulfill certain criteria. S Pass issuance is subject to a quota system.

## EMPLOYMENT PASS (EP)

Aimed at foreign professionals, managers, and executives who need to earn above S\$5,000 monthly, adjusted to S\$5,600 from January 2025. No quota limits the EP numbers, and it's renewable (initially granted for 1-2 years) as long as the holder remains employed by the sponsoring company.

Note that this salary requirement will increase with age. Older candidates with more experience are expected to have higher minimum qualifying wages, up to S\$10,500 for candidates in their mid-40s.

## ENTREPRENEUR PASS (ENTREPASS)

A form of Employment Pass for foreign entrepreneurs who start or intend to start a business in Singapore. Eligibility hinges on various factors,

like securing recognized investor funding, possessing significant entrepreneurial or investment experience, holding intellectual property, collaborating with accredited research institutions in Singapore, or having notable achievements in strategic areas. Issued for one year, it's renewable provided the business is profitable, with no quota restrictions.

## PERSONALIZED EMPLOYMENT CARD (PEP)

The PEP is part of Singapore's efforts to attract highly skilled foreign professionals to work in the country, contributing to its economy and development.

Allows job change without a new visa application, provided unemployment does not exceed six months. It's unsuitable for starting a business. Eligibility requires a substantial monthly salary of 22,500 SGD. PEP is non-renewable after three years, lacks a quota, and holders may eventually seek permanent residency (PR).

## TECH.PASS

Launched in 2021 for tech entrepreneurs, leaders, or experts to lead innovative ventures in Singapore. Eligibility requires an annual income of at least S\$240,000 and five years' tech sector experience. The pass is renewable for two years

and permits various professional activities. Tech Pass holders can later apply for PR.

## DEPENDANTS

Allows family members of pass holders to join them, subject to obtaining a work visa if employment is sought in Singapore.

## PERMANENT RESIDENT

Foreigners can apply to become permanent residents of Singapore (PR) and enjoy most of the benefits and rights granted to citizens.

The benefits include:

- The right to live in the country without a visa or work restrictions.
- Priority in public schooling for their children.
- Greater freedom to purchase a property.
- Participation in the pension fund scheme.

At the same time, they need to make specific commitments, such as sending their children to compulsory two-year military service once they reach the age of 18.

The main scheme that foreigners can apply for PR is the "Professionals/Technical Personnel & Skilled Worker" scheme, reserved for foreign professionals working in Singapore when applying for permanent residency.

The other two schemes foreigners can apply for PR are:

- **The Global Investor Program (GIP).** Under this scheme, foreigners can apply by starting a business with a minimum investment of SGD 2.5 million;
- **The Foreign Artistic Talent Scheme.** To qualify for this scheme, foreigners must be well-recognized artists in their own country and have made significant contributions to Singapore's arts and cultural scene.

# Healthcare in Singapore

Singapore boasts one of the best healthcare systems in the world. It provides easy access and its standards, not only in curative medicine but also in prevention, are exemplary. There is no shortage of medical professionals available to take care of your healthcare needs.

## Types of Healthcare

In Singapore, healthcare is delivered via a multi-functional approach consisting of outpatient primary care, specialist and emergency care.

### FINDING A DOCTOR

Whilst doctors can be found practically everywhere in Singapore, it is important to find one who understands your individual needs.

### Primary Care

For common illnesses and non-emergency illnesses, you should visit the primary care clinics first to get fast and prompt care. There are General Practitioners (GPs) in General Practitioner Clinics and Polyclinics in Singapore who are highly qualified to look after your primary healthcare needs.

**General Practitioners Clinics (GP clinics)** Across Singapore, there are approximately 2,300 private GP clinics. Since there are so many clinics it's likely that you'll be able to find one that is relatively convenient to visit no matter where you are in Singapore. GPs are qualified to address your primary medical needs and can carry out annual check-ups and chronic care. GPs have flexible working hours and are generally open all day until about 8.30pm. There are also some clinics operate 24 hours a day and are open on weekends and public holidays.

### Polyclinics

Polyclinics are a public 'one-stop' healthcare centres that provide outpatient medical services such as medical follow-ups after discharge from hospital, Maternal and child health, Immunisation, Health screening and education as well as Diagnostic and pharmaceutical services. There are currently 23 polyclinics, located throughout the country and distributed in a manner which is proportionate to the population density. They are open from 8.30am – 4.30pm on Mondays to Fridays and 8am – 12.30pm on Saturdays. They are closed on Sundays and Public Holidays.

## HEALTHCARE PRACTITIONERS

### Chiropractors

NOTE: Chiropractors are not doctors.

[www.chiropractic.org.sg](http://www.chiropractic.org.sg)

### Physiotherapist

Physical therapy, also known as physiotherapy, is one of the allied health professions. It uses mechanical force and movements, manual therapy, exercise therapy and electrotherapy to cure impairments and promote mobility and function.

A variety of clinics can be found on the web.

### Nutritionists & Dietitians

Nutritionists and dietitians aim to improve overall health and wellness by recommending changes in diet. They can advise on how to lower the consumption of certain nutrients and provide guidance on meal and snack planning. Find out more on the Singapore Nutrition and Dietetics Association's website:

## TRADITIONAL AND COMPLEMENTARY HEALTHCARE

While the healthcare systems in Singapore are deeply rooted in the Western model, the presence of diverse Asian ethnic groups has also seen the introduction and adoption of alternative medicinal forms. These healthcare practices focus on holistic and natural treatments, to improve strength and wellbeing.

When looking for such complementary therapies, which you may never have used, you should inform the practitioner about your medical history, any treatments you have received/are receiving and of any medicine you are taking.

The various forms of traditional/complementary medicine are as follows:

### TRADITIONAL CHINESE MEDICINE (TCM)

The most common form of complementary therapy in Singapore, it is so popular that Singaporeans often choose it over western medicine. TCM is often used to treat issues such as chronic neck, knee or back pain, arthritis, sports injuries, sciatica, migraines and help with weight loss, to name a few. It is highly respected and considered particularly effective for those with allergies.

Reputable TCM clinics that you might consider are:

## WATER ACTIVITIES

Because of Singapore's humidity, water activities, such as water playgrounds and swimming pools, are especially welcome. Swimming pools and sports centres (often including extras such as gym facilities) are strategically located around the island, so families can keep fit by swimming together.

For those up for a challenge, you may want to try wakeboarding, which is an exciting water sport.

You can also enjoy Singapore on foot using maps, mapping apps or by joining an organized walking tour.

### Gardens by The Bay

Covering an area of 101 hectares, Gardens by the Bay comprises three waterfront gardens, towering supertrees and two massive indoor environments, the Flower Dome and the Cloud Forest.

### Singapore Botanic Garden

Declared a UNESCO World Heritage Site in 2015, Singapore's Botanic Gardens feature the child-friendly Jacob Ballas Children's Garden and the Symphony Lake, a lovely spot for family picnics and open-air concerts.

### East Coast Park

The East Coast Park, known in short as the ECP, is the largest and most popular park in Singapore and boasts a long stretch of sea and swaying palm trees. The refreshing evening breeze makes the park popular in the evenings for walking, cycling, rollerblading, picnics and barbeques.

# La Braceria

PIZZA & GRILL

Family owned and operated Italian restaurant in Bukit Timah, Singapore. We opened our doors on September 2005. Since that day Fabio Iannone, his family and his staff have been serving up the best Italian food in Singapore. After three successful years in Greenleaf Road (along Sixth Avenue), the restaurant moved in to Greendale Avenue where it is a hidden gem of an Italian restaurant that is tucked behind a more conspicuous row of restaurants in the Greenwood enclave in Bukit Timah.

**La Braceria** is renowned for its authentic, southern Italian cuisine, a gastronomic tribute to Italy's Neapolitan region. Menus are changed seasonally to reflect the authenticity of the food while using the very finest Italian ingredients and what is freshest in local markets. Apart from the delicious cuisine, **La Braceria** offers guests a cozy setting with its down-to-earth décor and rustic charm. The restaurant is the perfect rendezvous spot for families and friends with its hearty food and selections of wines.

**La Braceria's** kitchen is headed by Chef Giovanni Minarelli, whose latest menu embodies his experience and philosophy of making authentic Italian cuisine. Chef Giovanni's forte is in pasta, seafood and steaks, and with that, he is rather confident that he will impress **La Braceria's** patrons.

Inspired by our visionary founder, **ZEGNA** follows its own path down the road that Ermenegildo built over 110 years ago in the mountains in Piedmont, northern Italy. His 232 road, crossing through the 100 km<sup>2</sup> Oasi Zegna natural territory that surrounds the original **ZEGNA** Wool Mill, has been turned into the 232 Road Brand Mark – a graphic abstraction of the **ZEGNA** brand identity, where its history is consolidated into the founder's family name.

Established as a fabric maker, **ZEGNA** is internationally recognised as a leading global luxury menswear brand and part of the **Ermenegildo Zegna** Group. Managed by Gildo Zegna as Chairman and CEO, **Ermenegildo Zegna** Group designs, creates and distributes luxury ready-to-wear and accessories under both the **ZEGNA** and Thom Browne brands to over 500 stores. As of 30th September 2022, 299 stores are directly operated by the **Ermenegildo Zegna** Group (242 **ZEGNA** and 57 Thom Browne) in 80 countries around the world. The brand remains committed to leveraging its rich heritage to build a better present and future.

## A CASA DI MARCO Pte Ltd

Eponymous to Chef Marco's family name, **Guccio Ristorante** encapsulates the fruit of familial love. Every corner you set sight on serves as signposts of indelible memories in Marco's childhood. Exactly like the Guccio's family residence, take 3 steps in, and be welcomed into the Guccio household, its heritage, and flavours.

While using top ingredients is not unique per se, Marco's signature cooking style is in his cuisine, the core ingredient becomes the main actor in the opera. Each dish has one ingredient at the center of the flavor experience. While the presentations are at times a contrast of colorful and complex textures, Marco's dishes create a balance of supporting flavors, similar to how supporting artists dance in harmony, in the background of the leading act.

In the background of Marco's main culinary signature style, Guccio will further differentiate itself by taking its diners onto a seasonal journey across the various regions of Italy, their fertile lands and their precious seas. At regular intervals, aligned with the four seasons of Europe, chef Marco will explore regional ingredients and recipes associated to each season, a unique opportunity to visit Italy even when 10,000 km away from it.

The **Thekkekara** method is a completely natural technique, of Ayurvedic derivation, which aims to manage and potentially eliminate back pain and other spinal disorders. In the second phase, the energy centers known as Chakras are stimulated. Finally, slow and gradual maneuvers are performed on the spinal column with the aim of obtaining active and passive muscle stretching, relaxation of the ligaments and adjacent tissues. The maneuvers are progressive and delicate; therefore, no pain is felt. They are performed on a normal massage table. Furthermore, to help the improvement process, some natural Indian essences with decontracting and anti-inflammatory properties are used. The main disorders on which the soft movement technique has shown greater effectiveness are: Low back pain; Neck pain; Whiplash; Back pain due to overweight, poor posture, excess physical activity etc.

Founded in May, 1978, Farmindustria – the association of pharmaceutical companies and member of Confindustria – counts today about 200 national and foreign-owned member companies operating in Italy.

With 63,500 highly qualified employees, the pharmaceutical industry in Italy plays a leading role in the international scenario. The overall pharmaceutical turnover amounts to 30 billion euro, with exports accounting for 73% of manufacturing of the 174 companies located in Italy.

With 6,000 researchers and investments for 2.5 billion euro each year (1.2 in manufacturing and 1.3 in R&D), Italy is buttressing its pharmaceutical research commitment, as demonstrated by 303 Italian biotechnological products under development, also thanks to the cooperation between public and private centres of excellence.

R&D and manufacturing are also vital for the activity of vaccines, which constitute an excellence of pharmaceutical industry.

In order to guarantee the fairest behaviour Farmindustria member companies have adopted a Code of Professional Conduct - today one of the most rigorous in Europe - that regulates not only the relations between companies but also their relations with the scientific and medical community.

Farmindustria, which is a member of the European (EFPIA) and International federations (IFPMA), pursues the achievement of a stable legislative framework and the outlining of policies by which the key role of pharmaceutical industry in enhancing the knowledge-based economy can get the right recognition, which may contribute to consolidating industrial presence on the territory and investments in research and manufacturing.

In order to convey the importance of pharmaceutical industry and Research, Farmindustria has started a “roadshow” through the Associated companies’ facilities, with the aim of providing a live demonstration of the production of value. Farmindustria has also presented the Orologio della Vita (Life Clock), which measures the contribution of medicines to the increase in life expectancy, and has created the website [www.farmacie-vita.it](http://www.farmacie-vita.it).

The logo comes in the form of a square shape to enhance stability and trust. The colours in the flags of both Italy and Singapore are reflected in the logo. The colours of the Singapore flag are positioned at the top portion of the logo in red and white while the colours of the Italy flag are positioned at the bottom portion, in green, white and red.

In view of the bilateral relations that ICCS bridges between Italy and Singapore in terms of economic,

commercial and legislative connections, the red coloured portion leads our eyes from the left towards the right and ends at the letter 'S', which stands for Singapore.

On a geographical level, Italy is situated northwest from Singapore, thus the red area could also represent a directional bridge, linking Singapore to the north-upwards followed by the west-leftwards, strengthening the ties between Singapore and Italy.
